

BASE Program Alignment

SELweb is a direct assessment of key social-emotional competencies, including: emotion recognition, social perspective-taking, social problem-solving, and self-control. BASE modules are designed to foster these competencies. This document describes alignment between SELweb and the targets of instruction in BASE modules. Each row reflects a specific module. Each column reflects a competency measured by SELweb. A checkmark (\checkmark) indicates that a specific SELweb competency is a target of instruction in the indicated module.
